

PERSPECTIVES

A DBIA-SOUTHEAST CAROLINAS CHAPTER EDUCATIONAL EVENT

**APR
25
2017**

Design Build has been catching fire throughout the Public Contracting Arena. In North and South Carolina this delivery method is new to many public authorities, however a few have been using it successfully for years.

This half-day workshop will educate on the process itself and provide attendees multiple perspectives of owners and practitioners who use the Design-Build delivery method for construction.

Attendees will leave with enough familiarity of the Design-Build process to make informed decisions whether to contract projects under this format and a network of industry peers, professionals and resources ready to assist, support & complete the work.

GRANDOVER RESORT & CONFERENCE CENTER GREENSBORO, NC
