CALL FOR PRESENTATIONS

**Your Project. Your Story.
Your Contribution to Design Build.**

You know Design-Build is all about teamwork. Most of us even have a story we love to tell our clients or city council members about how Design-Build principles made all the difference on a successful project or two.

Your team (the members of DBIA Southeast) would all like to hear those stories too!

DBIA's **2020 Southeast Regional Summit & Awards Banquet** will be held May 6-7, 2020 in Kiawah Island, SC and we're looking for our teammates to share their stories, case studies, and best practices with not only the Engineering, Contracting, and Supplier Leaders of our industry, but with Owners across the Southeast who are coming together — in one big room, for one big day — to see how DB works (and if Design Build might be right for them). Here's your chance to make a bigger impact and translate that Success to Significance.

If you have a success story or project experience that highlights the ups (or downs) of Design-Build project delivery, lessons learned, managing risk and expectations, collaboration/teaming or making that essential mental shift toward collaboration - your team needs you.

Read our submission guidelines on the following page and then submit your presentation proposal for the 2020 DBIA Southeast Regional Summit.

Hurry! The deadline for submissions is March 12, 2020.
